

happy now

I am, happy now
I am, completely, fine
there's nothing wrong with me and
Everybody needs to see that
I am, happy now

Birds are, flying, now
Soaring high, now
When I look up I see those birds
staring down at me cause
I am, happy now

I take responsibility
For my own damn body
And technically
it's nobody's business what I do, but
for the record,
I'm happy now
