

smart

Green, blue, brown eyes
- staring across the room.
Blonde, black, brown hair
- what am I to do?
You wave at me, and I crack a smile.
You walk in my direction, I'm terrified.

Chorus:
I'm not ordinary, oh no sir, quite contrary.
Big long words and numbers put together
Make me sound smart.

Verse 2:
Talking so fast, it's like a race.
I'm trying so hard not to fall on my face.
You say something like "Weather's nice,"
And I say something like
"You could say that twice."

Chorus:
I'm not ordinary, oh no sir, quite contrary.
Big long words and numbers put together
Make me sound smart.

Bridge:
Smart, smart, smart.
Works of art, like Joan of Arc
Movies, stop to start
Magazines and pretty things
Models, Actors, Politicians
Cars and Cats and Horses
Roller Derby, Cop Shows
And Armed Forces,
Celebrity Divorces
Babe I know it all.

Chorus:
I'm not ordinary, oh no sir, quite contrary.
Big long words and numbers put together
Make me sound smart.

I'm no hypnotizer
but I think you'd be fine with me.
Big long words and numbers put together
Make me sound smart.
Smart, smart, smart.

They make me sound smart.
