

what i know

Sweet memories
Hidden in these sad songs
And when i sing along
I feel you next to me

Sad melodies
Echo through these four walls
And when I sing along
I feel you next to me

Lovers come
And lovers go
Out of everything
This is what I know
They don't stay
they never do
Lovers come
And lovers
go, go, go

It was so lovely
and now it feels like war
what are we fighting for?
I need you next to me

Now we're enemies
no we aren't friends no more
lets settle the score
I need you next to me

Lovers come
And lovers go
Out of everything
This is what I know
They don't stay
they never do
Lovers come
And lovers
go, go, go

"da da da's"

Lovers come
And lovers go
Out of everything
This is what I know
They don't stay
they never do
Lovers come
And lovers
go, go, go
